- *Explanations about the Kindling of the Crystal MONA'OHA and the Opening of the Gates of Lemuria*

On May 11, 2014, during the Gathering of the Lightpioneers first the Crystal MONA'OHA in Israel was kindled and afterwards eleven layers of the Lemurian Gate opened.

With this opening 1728 pillars of light were placed in front of the gates of Lemuria. The biggest spiritual field of activity of the Earth will develop there during the adaptation phase. Pillars of light have been prepared for 1728 divine human beings who move into them energetically. A pillar of light is a circulating field with a membrane. It contains everything of you since the beginning of time, all the good things. They also comprise the new technology, the knowledge, the wisdom, all the abilities, creating the new world and unbelievably much energy of Jesus.

It is by no means certain that each Pioneer who has reached the current Step is assigned a pillar of light. It can also be a Pioneer who is at Step 28 or somebody who has not taken any Pioneer Steps at all. It takes many different components to be chosen to enter this pillar of light. Not I decide this, but only the spirit world. But you do not have to have misgivings or doubt whether you are part of it. You will feel it.

Around 220 pillars of light have not been allocated at all yet. They are waiting for people of the golden-blue frequency who have not arrived yet. It can be that somebody goes into their awakening and is then suddenly allocated a pillar of light. Over 1500 pillars of light have already been allocated and today you will be drawn into yours with the channeling.

The most important information about the pillars of light is that this field is in Israel. It has nothing to do with the pillars of light which have been placed by the Sea of Galilea. These 1728 pillars of light will also become visible some time, when the last membrane of the Lemurian Gate dissolves and the adaptation phase begins. It does not remain energetic only, but the first, biggest spiritual place of activity on this Earth, which is the new Earth then, will develop. From there will begin, for example, the use of the new technology, the work with the Crystals, creating the new world. Everything will take place in this field of light.

It is not the case that 1728 pillars of light are standing in a row in the light field, but it is a huge field. Gradually several places of activity will develop as part of the places where the Holy Grails are. One will develop in Chile, in the Chiemgau, in Switzerland, and so on. When the new world manifests and shows itself you can travel from place of activity to place of activity with your merkabah for they are all of them connected with each other. So you do not have to tie yourself down.

On Landras there is the Pearl Field, and the pillars of light are similar. There they guide inhabitants into the awakening. In the process they are very loving but also strict. They also send many inhabitants away again, for they look after and protect their Pearl Field. It is filled with Prosonodo Light and our field of Lemuria is four times as powerful because Jesus was on our planet. You can imagine how it will be here. You will guide many, many human beings into awakening. Your abilities will continue to expand. The light bodies will restructure. The energies will pour in in a more structured manner. You will feel more grounding.

The biggest event, however, was not the opening of the gates, but the kindling of the Crystal MONA'OHA. With this, energetically the work is finished. What Jesus has always said: You will finish my work on Earth. This kindling had to happen from trust alone. It was the task of the planet, the task of the golden age to have so much trust that this Crystal can kindle itself. This guarantees: We have made it. The biggest event there has ever been on the planet so far. This is what Jesus was not able to do then. You can imagine his joy that it has succeeded now.

This Crystal MONA'OHA is kindled and at present still being carried in this light field by 36 High Councillors in their light imprint and 12 human beings who are in the pillars of light. It is being carried by 48 light imprints in total. In this Crystal MONA'OHA Jesus will show himself again.

## **Why were many Pioneers not present at the kindling of the Crystal MONA'OHA and the opening of the gates of Lemuria?**

I am glad that it was not announced. It is good as it has happened.

It does not matter if you were not present. For with today's channeling the human beings' invitation into the pillars of light takes place. This is independent of attendance at the last Gathering. I really understand that it is a pity for some not to have been there. For it was a gigantic experience and can not be repeated. But the actual thing is only beginning now with today's channeling.

## **What leads to somebody moving into a pillar of light?**

- The reason for your being on Earth
- The task you have
- Very important is the feeling of belonging to your frequency. Because of that I have referred to the golden-blue frequency all these years. It has nothing to do with the 48 Steps and is no judgement, for all the frequencies will move into that light field, into this place of activity. But the golden-blue frequency first of all.
- The intention
- Trust
- Dedication
- The decision one has made
- The promise one has made in Lemuria once.

Whether one has doubted or stopped the Steps is not important. But we have always been told: Trust, it is the age of trust. Do not doubt yourself so much. The new age will show itself. The ascension will take place. Feel that you belong to your frequency. Speak your original name. Anything else would have been manipulative. And that was not what I wanted and is not what the spirit world wants. It is as it is and it is good as it is.

## **What if I am not allocated a pillar of light?**

Those for whom no pillar of light is there for understandable reasons will not know it and create a pillar of light for themselves and be happy. Those who really move into a pillar of light will feel it. You simply know it.

The difficulty will be that some will not understand why they do not receive a pillar of light and it is these 1728 human beings. Many feel this as being judgemental. But this is the way it is and can not be changed. For this reason it would not be good to enter into such discussions.

Heiko and I agree that we want to go on with the people who have gone with us so far, if they want to. Of course we also welcome others, but we do not want the kind of discussions of the past. There are other paths people can turn to if they feel they have been treated badly. It does not have to be Kryonschool or SHIMAA Verlag.

### **How is it going to go on energetically?**

First of all a lot of SHADEES will flow in. From now on there will not be any light body symptoms, no tiredness for you anymore. It is the same with the magnetic love energy. It is over now. If it still appears it has other reasons. SHADEES has a more strengthening effect. They are trying to bring as much SHADEES as possible onto Earth so that everything will take place as gently as possible when the membrane collapses. But since today I have the information that it will come to more intense processes of transformation after all than thought or hoped.

When the membrane collapses you are in your pillars of light. A process of transformation will begin and divine Reality energy will meet duality. You will then automatically be pulled into your pillars of light once you have been in them. Do not worry about your family, about your pets. There is, for example, a pillar which is intended for all the children of the New Age. Everything is taken care of and you will also receive information from me again and again. Do not worry about anything, the spirit world has the perfect plan. The pillars of light are brilliant. It is not an end, but it will really begin.

### **When will the Holy Grail in Israel kindle itself?**

The Holy Grail in Israel will also be kindled in this field of Lemuria. Actually it is ready and it could happen fast now. It could even happen before the membrane collapses. I will give you information about that then and it would be nice if a group were on-site.

### **What about the Steps now?**

The SOL'A'VANA Steps will get more intensive now and also in the adaptation phase. Energies can sometimes not really be understood. As Pioneer you can travel to your pillar of light with today's channeling or the Pioneer Step. But only the SOL'A'VANA Steps grant you to absorb this in you so that you can travel there alone. The SOL'A'VANA Steps will always be a step ahead with the energy of the New Age. In the adaptation phase, too, this energy will be a bit further advanced. When we create the new world and it shows itself somewhere, then we are another step ahead again.

I can not say anything about the Pioneer Steps at this time, I have to fetch more information first. But I would also like to wait first and see what is going to happen and how long it will take until the membrane collapses. Should something change I will inform you.
